

Antonio Loprieno elected next President of ALLEA

- President-elect Loprieno will assume his position as President of ALLEA, the European Federation of Academies of Sciences and Humanities, in spring 2018 following the end of Günter Stock's Presidency
- The General Assembly voted in favour of admitting Bilim Akademisi (Science Academy, Turkey) as a full member of ALLEA
- ALLEA is establishing a new Working Group investigating the dynamics of public trust in expertise in the so-called "post-truth" era

4 September 2017 (Budapest, Hungary) ALLEA Member Academies elected today in Budapest Professor Antonio Loprieno as the next ALLEA President for the term 2018-2021. President-elect Loprieno will assume his position during the next General Assembly at the Bulgarian Academy of Sciences in Sofia in May 2018, following the end of the second term of ALLEA President Günter Stock.

The General Assembly, ALLEA's highest legislative body, voted in favour of Loprieno during the 18th annual business meeting celebrated at the Hungarian Academy of Sciences. His candidacy is supported by the Swiss Academies of Arts and Sciences.

President-elect Loprieno (1955, Bari, Italy) is a renowned scholar of great repute in Egyptology, Linguistics, and Semitic Languages, and an experienced leader of academic and public institutions in Switzerland and internationally. He was Rector of the University of Basel (2006-2015) and President of the Conference of University Rectors in Switzerland (2008-2015). Currently he is President of the Austrian Science Board (Österreichischer Wissenschaftsrat) and President of the Swiss Studies Foundation, among others.

New ALLEA Member and New Working Group

During the business meeting, ALLEA Member Academies voted in favour of accepting Bilim Akademisi (The Science Academy, Turkey) as full member of ALLEA. Bilim Akademisi was established in Istanbul on 25 November 2011 as an independent non-governmental entity with a mission to promote, to model and to protect scientific merit, excellence, independence, and integrity. The Academy was founded by former members of the Turkish Academy of Sciences (TÜBA), following a decree by the government of Turkey in August 2011, which changed the academy's structure and appointment procedures.

In response to current challenges, ALLEA is establishing a new working group investigating the dynamics of public trust in expertise in the so-called "post-truth" era. The alleged loss of trust in science and evidence, its underlying causes, the way different disciplines are dealing with it, and questions on how valid knowledge can and should be acquired, will be the focus of this group. It will be co-chaired by Baroness Prof Dr Onora O'Neill from the British Academy, and ALLEA Vice President Prof Dr Ed Noort.

Koen Lenaerts, 2017 ALLEA Madame de Staël Prize Laureate

Following the ALLEA General Assembly, ALLEA celebrated the award ceremony for the 2017 All European Academies Madame de Staël Prize for Cultural Values. This year,

Professor Koen Lenaerts was awarded the ALLEA Prize to honour his extensive scholarly work on European law and his reflections on European jurisdiction. He is a Professor of European law at the Katholieke Universiteit Leuven and President of the Court of Justice of the European Union (CJEU). His publications represent a thorough and impeccable analysis for understanding the EU's judicial system and the democratic values on which it is based. "Law is at the origin of the European idea and the basis for free societies, and this year the Prize Jury decided to honour a scholar with a truly European track record in law", stated ALLEA President Günter Stock, Chair of the Prize Jury.

Lenaerts is the fourth scholar to be honoured with the ALLEA Prize, which is endowed with 20,000 EUR, thanks to kind co-sponsorship of the Italian foundation Compagnia di San Paolo.

About ALLEA

ALLEA, the European Federation of Academies of Sciences and Humanities, was founded in 1994 and currently brings together 59 Academies in more than 40 countries from the Council of Europe region. Member Academies operate as learned societies, think tanks and research performing organisations. They are self-governing communities of leaders of scholarly enquiry across all fields of the natural sciences, the social sciences and the humanities. ALLEA therefore provides access to an unparalleled human resource of intellectual excellence, experience and expertise.
